GROUP BOOKINGS

To enable us to best serve your group we have two dining options for parties of 10 or more. They have been designed to reduce the pressure on the kitchen and to enhance your customer experience. You can either select from one of our set menus or choose a reduced version of our normal menu. This means pre selecting three of the entrees and three of the main courses from the menu which will become the menu for your group for the evening. The full selection of side dishes and desserts will be available. The dishes selected will be individually priced so that people can select either one, two or three courses.

All the menus are listed below. Where possible 48 hours notice is appreciated in the selection of menus. If we can help in any way please contact one of the team.
